

## Employment Placement in Canada

Since 1998

Members of Better Business Bureau  
since 1999

A company that Cares for you and  
your family

We require  
excellent references

from schools, training centers and  
previous employers, plus we ensure that  
the caregiver works well independently  
without supervision, in a private household  
in which your family resides.

You will recognize

that the Caregivers we provide are special,  
as you will feel their flames of charity, love  
and compassion for the children, elderly  
and/or handicapped for whom they care.
